

PETROCHEM

DISTRIBUTING
CHEMICALS
GLOBALLY

The year 1995 saw the inception of Petrochem Middle East FZE. We have since transformed the face of the regional petrochemical business and become one of the largest independent chemical distributors in the Middle East.

Petrochem has built one of the most modern, state-of-the-art distribution terminals in Jebel Ali. This facility includes bulk storage sea fed tanks, dedicated drum storage facilities, four fully automated drumming lines and a separate dry goods storage area. The terminal adheres to the strictest of health and safety norms and is environment friendly, making sure all operations upkeep the health and safety of its personnel.

We began operating from one office in the Jebel Ali Free Zone, Dubai, but rapid developments and a focused vision have ensured Petrochem's global expansions. We currently have offices in Dubai, Jebel Ali, Shanghai, Antwerp and London. We also have office and distribution facilities in Singapore, India and United Arab Emirates.

We are certified for ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007.

Few highlights of Petrochem Middle East are:

1. Full-fledged team comprising of dynamic engineers, sales and management professionals, in-house logistics & operations department.
2. Exclusive distributors for world-renowned companies.
3. An inventory of over 180 types of chemicals from solvents to specialties, which are used in wide range of industries.
4. Offer chemical solutions for the paint, coating, printing inks, oil field, perfumery, cosmetics, detergent and pharmaceutical industries.
5. An ultra-modern fleet of road tankers and large trailer trucks - ensuring quick and timely deliveries.
6. Exports of over 800,000 MT of products from its terminal to the Middle East, Africa, Europe, Indian subcontinent, Far East and the Asia Pacific.
7. We are a global chemical network company.

We provide quality, economical and timely solutions to customers globally, hence rightly called PETROCHEM-Distributing Chemicals Globally.
